Greetings to Owners and staff:

It has taken us a few months to "break in" our new home, and I do want to tell all of you that we are very satisfied with the workmanship and overall quality that was put into our new house.

There are always a few details in any new construction that have to be adjusted, and your supervisors, Luke and Mark, saw to that quite well. Having experience in the construction industry myself made me aware of the minor problems that some homebuyers stew about. I am not disposed to address "micro-problems." [Life is short, and for a guy my age, even shorter.] So, when I have called with questions or concerns, I hope I have never been seen as a "pest." I do not sweat the small stuff. I just fix it.

Thank you too, for the case stuffed with information on appliances, warranties, etc. More important than that was the beautiful basket with goodies in it. I have been waiting to open it. I wanted to get this "Thank You" letter out first!

Your cabinet man, who installed the trash bin, said, "Tundra builds a really good home!" I could not agree more. You have some really good vendors.

Thanks again,

Al Holland Jr
